Summary

AI-focused Full Stack Developer skilled in MERN, Next.js, TypeScript, and Flutter. Experienced in building scalable applications, integrating AI (OpenAI, HuggingFace), and deploying production systems using AWS, Firebase, and Docker. Strong interest in cloud systems, backend development, and real-time web applications.

Experience

Full-Stack Developer (Freelance)

Feb 2025 — May 2025

DSR Group Mandsaur — Mandsaur, India

- Built and deployed a 40+ page finance platform covering IPO, Stocks, Mutual Funds, ETFs, Loans, Analytics and more.
- Integrated live stock market APIs for real-time data updates.
- Developed financial calculators including SIP, EMI, Retirement, and Insurance.
- Managed hosting, uptime monitoring, performance optimization, and domain/SSL configuration.
- Built complete full-stack features using React, Node.js, Express, and MongoDB.

Projects

MeraAI — AI Multi-Module Platform [LIVE](#)

- Full-stack application built using **TypeScript, Node.js, MongoDB, Next.js**.
- Features AI chat, voice input, file tools, news, markets, entertainment modules, and travel utilities.
- Integrated OpenAI API, live APIs, and real-time data streaming.
- Created fully responsive UI with Tailwind CSS.

HomeEase — Real-Time Booking Platform [LIVE](#)

- Built a service booking system with real-time notifications and automated workflows.
- Backend developed using Node.js, Express; data stored using MongoDB.

PawToGo — Pet Pickup Service (MERN Stack) [LIVE](#)

- Created a MERN-based scheduling and pickup service platform.
- Implemented request management, service tracking, and user dashboards.

Education

B.Tech in Computer Engineering

2022 — 2026

Marwadi University — Rajkot, India
